

NT-ware About Us

Welcome to NT-ware

Our goal at NT-ware is to develop and support the best IT platform for documents in organizations and print-rooms worldwide.

By reducing cost, improving security and increasing productivity, our technology is aimed at optimizing operations in businesses of all types and sizes. For this purpose, we cooperate closely with our customers and partners around the world. All our working processes at NT-ware, including product development, are customer-oriented so that we and they can respond to market requirements and achieve real benefits.

Founded in 1998 as a small start-up, today NT-ware employs more than 100 members of staff at headquarters in Bad Iburg in Germany with subsidiaries in New York, Singapore and Tokyo. Our products and services are available on all international markets with Canon acting as our partner in development, distribution and support. We attend to customer installations around the globe, managing an impressive number of Canon devices..
